

Example: Logic Model key evaluation questions

The Key Evaluation Questions and the Indicators for the logic model are shown below. This is the same example logic model that was used in the course.

Key Evaluation Questions

Inputs	Outputs (Activities)	Outputs (Participation)	Outcomes (Short term)	Outcomes (Medium term)	Outcomes (Long term)
<ul style="list-style-type: none"> Were the inputs sufficient, timely? 	<ul style="list-style-type: none"> Was curriculum developed? Were all 6 sessions delivered? 	<ul style="list-style-type: none"> Did all parents attend that we invited? Do did/did not attend? Did they attend all 6 sessions? Why/Why not? 	<ul style="list-style-type: none"> To what extent did knowledge increase? Did they learn new approaches? What else happened? 	<ul style="list-style-type: none"> Are parents actually using improved skills? So what? What difference do these skills make? 	<ul style="list-style-type: none"> Has there been a decrease in rates among participants? Were goals met?
